TestFlight Access: testflight.apple.com/join/ubbVX87p

OFFICIAL 100-WORD STARTUP WRITE-UP

95 WORDS

Mindle Pvt Limited is a product-first AI and software innovation startup building human-centered digital experiences. Our flagship product, GitaConnect, is a patent-pending spiritual companion mobile application that bridges ancient wisdom with modern technology. Grounded in the 700 verses of the Bhagavad Gita, GitaConnect features a domain-restricted, anti-hallucination AI mentor in 11 Indian languages, mood-driven verse recommendations, an interactive spiritual feed, digital Jaap counters with haptic feedback, and 90-day spiritual analytics. Powered by an offline-first architecture, Mindle aims to build durable, accessible, and intelligent products that positively impact daily wellness, mindful living, and modern self-growth worldwide.

1 Patent Filing

The Patents Act 1970 (Form 2)

11 Indian Languages

Anti-Hallucination Sarvam AI

700 Scripture Verses

Device-Resident Datastore

100% Offline-First

Resilient Offline Cloud Sync

Core Founding Team & Innovators

Abhinav Kumar

Co-Founder • Full-Stack Lead

Full-stack engineer shipping end-to-end product surfaces across mobile iOS and scalable cloud architecture.

Abhijit Balpande

Co-Founder • Product & UI/UX

Bridges design and engineering to transform intuitive user concepts into high-craft, shippable features.

Omkar Pujeri

Co-Founder • Systems Architect

Directs architecture, offline-first data synchronization layers, and low-latency AI inference pipelines.

Aryan Dev

Co-Founder • AI Systems Lead

Engineers domain-locked multilingual AI mentorship systems and anti-hallucination prompt verification architectures.

ACADEMIC MENTORSHIP & INSTITUTIONAL SUPPORT (MIT-WPU, PUNE):

Mindle Pvt Limited and its flagship platform GitaConnect have been incubated and developed under the academic and technical guidance of Dr. Murtuza Dholkawala and Prof. Kamakshi Goyal at the iOS Center, 7th Floor, VYAS Building, MIT-World Peace University (MIT-WPU), Paud Road, Kothrud, Pune. The faculty mentorship has fostered high-standard student research, leading to a formal Indian Patent application under The Patents Act 1970 (Form 2 Complete Specification), bridging student innovation with production-grade AI systems.

Flagship Innovation: GitaConnect

AI-Powered Multilingual Spiritual Companion & Mindful Living Platform
Integrated Mobile Computing System • Form 2 Complete Specification

PATENT PENDING

Indian Patent Office Filing

Proprietary Subsystems & Patent Highlights

1. Domain-Locked AI Mentor

Powered by Sarvam-30B with strict language-lock across 11 Indian languages, tone calibration, and automated verse verification against on-device scriptures to guarantee zero hallucination.

2. Mood-to-Verse Guidance

Interactive 3-step emotional check-in with animated pleasantness slider maps the user's emotional state directly to actionable, therapeutic Bhagavad Gita wisdom.

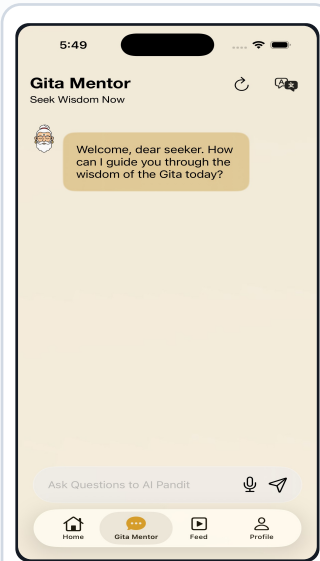

3. Digital Jaap with Haptics

140 curated deity mantras mapped to the day of the week, audio playback, and a full-screen Jaap counter delivering subtle haptics per tap and heavy vibration upon 108 malas.

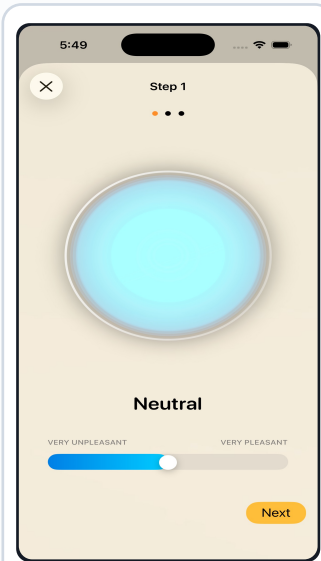

4. 90-Day Spiritual Analytics

Comprehensive time-series analytics visualizing mood transitions, reading habits, mantra repetitions, and streak progressions across 7, 30, and 90-day intervals.
